

BIG QUANTITY CATTLE FEED WASTED YEARLY

Available Products Are Now
Put To Less Profitable
Uses By Farmers

A vast quantity of feed available for cattle is now either wasted absolutely or put to some less profitable use, says a recent report which the Department of Agriculture has just published as Part IV of a comprehensive survey of the entire meat situation in the United States.

Failure to utilize the full value of this material has increased unnecessarily the cost of producing meat, has diminished the profits from cattle feeding, and has discouraged many farmers from engaging in an industry essential to their permanent prosperity.

According to the report already mentioned, the loss in grain straw and corn stover amounts to more than \$190,000,000 annually. Both of these products are disposed of most economically when fed to cattle in connection with some form of concentrated feed. Straw is especially valuable in carrying the breeding herd through the winter, in wintering stockers, and as a supplementary roughage for fattening cattle, especially mature breeding cows. Nevertheless, in many sections of the country where these products are abundant, little attempt is made to take advantage of their value for these purposes.

Of an annual straw crop of approximately 120,000,000 tons, it is estimated that only two-thirds is put to its best use—live stock production. Of the remainder a little more than one-half is sold or turned under and the rest—15 per cent of the total crop, is burned. Burning is practically an absolute waste and although plowing under does contribute something to soil fertility, the benefit to the land is less than that which would be derived from the use of the straw to produce manure. "Of all systems of obtaining permanent soil fertility," says the report, "none is so practical or as easily available as that of feeding live stock."

The average value of all kinds of straw is placed at about \$5 a ton. In many sections, of course, no such price can be realized for it, and as a matter of fact only about 8 per cent of the crop actually is sold. The figure mentioned, however, may be taken as representing the value to the farmer of straw if he will use it properly in his farming operations as feed or building.

Buchanan Canning Club Girls In Meet

The Canning Club at Buchanan is very enthusiastic, having just held its second meeting. The first meeting was merely for organization, when Miss Inca Henry was elected president and Miss Lois Henry, secretary and treasurer. The second meeting was very interesting. The county agent, Miss Hattie Smith, was with the club and held a demonstration, canning beans and plums in both tin and glass jars.

Miss Martha Thomas, of Jackson, the district agent for West Tennessee, was also with the club for about an hour. She gave the girls an "idea" of what the fair next fall was going to be, and they are going to begin right away to fill exhibit jars to show the county what they are doing. They hope to win out over the older clubs.

To Drive Out Malaria
And Build Up The System
Take The Old Standard GROVE'S
TASTELESS CHILL TONIC. You know
what you are taking, as the formula is
printed on every label, showing it is
Quinine and Iron in a tasteless form.
The Quinine drives out malaria, the
iron builds up the system. 50 cents.

CHURCH WILL CHANGE THE MORNING SERVICE

Sunday School and Morning
Service to Be Combined
At Christian Church

Next Sunday morning at the First Christian Church the customary order of doing things will be set aside for the month of July.

For years there have been two services in the morning, Bible School and church. These services requires from 2 hours and 15 minutes to 2 hours and 30 minutes. After bible school there has been a 15 minute intermission, which gave folks a chance to go away and forget to get back for the church service. This condition is true of all the churches.

Beginning next Sunday, July 2, there will be only one morning service at the First Christian Church. Both Sunday School and the morning church service will be 1 hour and 30 minutes in length. Instead of beginning at 9:30 o'clock Sunday morning, the service will begin at 10 o'clock—a half-hour later. The same amount of time will be devoted to the class sessions—all the work will be done and what has been the closing exercises of the school will be the opening exercises of the period of "worship." At 11:30 it will be time to go home.

Sunday being the second of July, near to July 4, the church will have Flag Day. The first 150 coming to church will receive an American flag, and the pastor, Rev. Lambreth Hancock, will speak on "The Flag Above All Other Flags."

The plan of combining Sunday School and the morning church service at the Christian Church will be watched with much interest by members of the other churches, as they too have been confronted with the problem of many leaving after Sunday School and not returning for church services.

TRIBE OF BEN HUR PLANS SULPHUR WELL PICNIC

Attractive Program Announced
For Gala Day Saturday
July First

At the Sulphur Well on Saturday, July 1, a picnic is to be given under the auspices of the Tribe of Ben Hur. An attractive program has been arranged by the committee in charge, which is composed of H. S. Wells, Thurman Thompson and C. S. Lipps.

The committee announces that there will be speaking by some of the leading fraternal workers of the State and many other enjoyable features. Dinner on the ground has been planned and the public is invited to participate, and especially are members of the Tribe of Ben Hur urged to be present and bring dinner. A large crowd is expected to attend the picnic.

STEPS IN THE CAREER OF PRESIDENT WILSON

Nation's Executive Was Born
At Staunton, Va., On December 28, 1856

Born December 28, 1856, Staunton, Va.

Went to school Columbia, S. C., 1870.

Entered Davidson (N. C.) college, 1873.

Entered Princeton, 1875.

Graduated A. B., 1879.

Began law practice in Atlanta, 1882.

Entered Johns Hopkins university, 1883.

On Bryn Mawr faculty, 1885.

Received Ph. D., 1886, from John Hopkins.

Professor history and political science, Wesleyan university, 1888.

Chair of jurisprudence, Princeton, 1890.

LL. D. from Lake Forrest university in 1887; Tulane university, 1898; John Hopkins, 1901; Yale, 1901.

Elected president of Princeton, 1902.

Nominated governor of New Jersey, November, 1910.

Nominated for president of the United States July 2, 1912.

Inaugurated March 4, 1913.

Renominated, St. Louis, June 15, 1916.

News From Cottage Grove, Route No. 1

The farmers are exceedingly busy laying by corn and cutting hay. Quite a lot of tobacco has been set. Many of the farmers are talking of the association.

There was a large crowd attended the Sunday School Convention at Oak Hill Church Saturday and Sunday.

Hilary Marcus, of Paris, is visiting at the home E. P. Bridges this week.

Tom Wilson, of Paris, Route 5, visited at the home of E. P. Bridges Sunday.

The big meeting at Cottage Grove will begin on the Fourth Sunday in July.

The big meeting will begin at Oak Hill on the Third Sunday in July.

J. E. Davis is reported better at this writing and friends hope for his early recovery.

Misses Mattie and Hattie Bridges visited Misses Edna and Nellie Starling on Paris, Route 5, Saturday and Sunday.

Quite a number from this place went to Memphis on the excursion Sunday.

Several from here attended the Chautauqua at Paris last week.

E. P. and Will Bridges were in Paris Saturday.

Everybody is sorry to see so much rain. It is so bad on the wheat crop.

Miss Grace Foust, of Paris, Route 4, attended the Sunday School Convention at Oak Hill the Third Sunday.

Arthur Speight was in Paris Saturday on business.

Willie Johnson, of Mayfield, Ky., is visiting here this week.

A large number of young people from this place will attend the big picnic at Sulphur Well on July 1.

"Reason-Why" Tires

GOODRICH "Barefoot" Tires are light in weight, and close grained.

This proves them relatively free from the usual inert substances or "fillers," that give excess Weight, stiffness, and grind, to Tire treads.

More than 200 different Makes and Brands of Motor-Car, and Truck, Tires were manufactured and sold in U. S. A. last year, 1915.

These totalled about 12,000,000 Tires. Of that 12,000,000 total Tires, the B. F. Goodrich Co. made and sold one-fourth.

Yet, —Tires are only one of the 267 different lines of Rubber Goods made by the Goodrich Rubber Factory, which is the largest in the World, with a 47-year Experience.

This indicates the "Reason-Why" Goodrich Best-in-the-Market Fabric Tires can be, and are, sold to Consumers (via Dealers) at the lowest prices in America, per delivered Mile of Performance. Compare figures herewith and see!

Goodrich "Fair-List" Prices

BLACK "BAREFOOT" SAFETY-TREADS

	Ford Sizes	
30 x 3		\$10.40
30 x 3 1/2		\$13.40
32 x 3 1/2		\$15.45
33 x 4		\$22.00
34 x 4		\$22.40
35 x 4 1/2		\$31.20
36 x 4 1/2		\$31.60
37 x 5		\$37.35

Goodrich Truck Tires

REPLACEMENTS of other Makes of Truck Tires with Goodrich Truck Tires, during last four years were as follows:—

1912 Change-overs to Goodrich	3,590
1913 " " " "	6,357
1914 " " " "	10,725
1915 " " " "	14,000

These Change-overs to Goodrich tell their own story to the thinking Truck-Owner.
